

Vacuum Switches VS-V-A-PNP-S

Vacuum Switches VS-V-A-PNP-S

Design

- Electronic vacuum switch in robust polyamide housing
- Vacuum connection via aluminum flange; additional M5 female thread
- Switching point adjustable with a screw; hysteresis fixed
- Supply voltage and signal output via 4-pin M8 screw connector
- Integrated LED for indication of the switching state

Suitability for Industry Specific Applications

Applications

- Electronic vacuum switch for system monitoring of vacuum systems
- Optimization of cycle times and regulation circuits to increase efficiency of vacuum systems
- Compact construction and low weight permit use directly on the suction cup
- For use in all areas of automated handling

Product Highlights

- Electronic vacuum switch for precise switching and measuring
- Adjustable vacuum limit value and vacuum monitoring via analog and digital output
- Switching point adjustable according to customer requirements
