

Accessories Wafer Gripper SWGm

Accessories Wafer Gripper SWGm

Design

- Vacuum / damping module for external hose diameter 4 mm
- HTR holder system with M8x1-IG, M12x1-IG or as a universal holder
- Floating SBSm suction module for hose diameter 4/2 mm
- Flange module for connection to various robots such as ABB, ADEPT, Fanuc, Yaskawa, Kawasaki, Murata, Elau, Stäubli or a universal flange for follow-on work
- Exhaust ducts for the controlled release of intake air - axial or lateral for hose diameter 14 mm
- Solenoid valve EMV with nominal width 2.5 or 1.5 mm

Suitability for Industry Specific Applications

Applications

- Used in combination with the SWGm wafer grippers

Product highlights

-
