

## Accessories STGG

Accessories STGG

### Design

- Vacuum/damping module for external hose diameter 4 mm
- HTR holder system with M8x1-IG, M12x1-IG or as a universal holder
- Floating SBSm suction module for hose diameter 4/2 mm
- Flange module for connection to various robots such as ABB, ADEPT, Fanuc, Yaskawa, Kawasaki, Murata, Elau, Stäubli or a universal flange for follow-on work
- Exhaust ducts for the controlled release of intake air - axial or lateral for hose diameter 14 mm (only STGG ... E100 models)
- Solenoid valve EMV with nominal width 2.5 or 1.5 mm (only STGG ... E100 types)

### Suitability for Industry Specific Applications

#### Applications

- Accessories for the attachment of sensors and vacuum/damping modules and a variety of robot flange modules

### Product Highlights

-
