

Egg Suction Cups FG X, FGA X, FGB X

Egg Suction Cups FG X, FGA X, FGB X

Design

- Round bellows suction cup with flexible, steep, and conical sealing lip for a reliable seal on eggs of different sizes

Suitability for Industry Specific Applications

Applications

- Handling of eggs in packing and sorting machines
- Also suitable for use in breeding stations

Product Highlights

- FDA compliant silicone SI allows direct food contact
- Steep, conical sealing lip holds eggs optimally
- Maximized stroke effect immediately after touching the eggs
- Conical bellows increases lateral stability when the suction bellows are fully compressed
